## Iridium Connections

### Starter Pack

Iridium now offers a range of connection formats to allow you greater flexibility in the way you connect. You can connect with as low as 50 minutes and for one month and extend your connection with either more time or more months as you go.

The most economical connections is the 12 month 500 minute connection but not all users need that amount of call time.

The Pacom basic starter pack includes SIM card, 50 minutes of talk time, 3 months connection, and connection/documentation fee. You can add minutes or months as required.

The price of the starter pack subject to exchange rate variation of the Kina and will vary from time to time.

**As at March 2004 the Pacom starter pack is K850 plus VAT.**
